Lynne Mills
Operations Director

Welcome

As a valued Genesis customer, I'm pleased to welcome you to the second issue of The Gen. We've had some great feedback to our first edition so have packed even more inside this one.

In this edition, we explain how BlackBerry® could help your business, as well as suggesting 5 simple ways to tailor your current package.

We've also pulled together a fantastic selection of handsets, including the new Nokia 6300, which is fast becoming a Genesis favourite!

Plus, if you're in a position to renew your agreement with us (or add a connection to your account), we're offering the chance to win £300 vouchers for your business when you visit www.genesis.co.uk/connect and fill in our call back form!

Don't forget to take a look at the Mobile Essentials pages and avoid getting caught out with 3 points and £60 fine under the new Road Safety legislation.

We hope you enjoy the latest edition of The Gen and we look forward to hearing from you soon.

Looking to add a new connection or renew your agreement? Apply online for your chance to WIN!

This spring, we have some fantastic deals available for customers adding new connections to their existing account, as well as top phones and deals for customers who are ready to renew their agreement with Genesis Communications.

Check out our handset guide on pages 6 and 7 and find a phone you like, prices start from FREE (dependent on your monthly spend) and we're sure to find a package to suit you.

As a special bonus, when you request a call back through **www.genesis.co.uk/connect** we'll enter you into a prize draw to **win £300 of Dixons Group vouchers**, redeemable in Currys, Currys.Digital and PC World – why not treat your business to some new office equipment?

If you prefer, you're welcome to upgrade your handset or take out an extra connection in the usual way – by calling **0870 066 9905**. **However please be aware that this bonus competition offer is only available to customers requesting a call back through the website.**

It's simple – just visit **www.genesis.co.uk/connect** indicating if you are interested in an upgrade or a new connection and one of our advisors will call you back to discuss your requirements.

For full terms and conditions visit www.genesis.co.uk/connect
Competition closes 31st May 07.

The stylish way to get things done

We're BIG on BlackBerry®

Are you?

If your business hasn't yet discovered the benefits of BlackBerry,® you may be missing out.

We recently surveyed 6,500 UK SMEs about the use of push email in their business. Of those already using a mobile email device, a huge 91.4% agree that using a mobile email device has helped their business by making communication quicker and more effective.

Incoming email recieved by email server
Normally goes straight to your desktop computer
Now also sent to your BlackBerry® via wireless network

BlackBerry® devices use the GPRS network to stay permanently connected to your email service (subject to network coverage). Whenever an email is sent to you, it is automatically pushed to your BlackBerry® device – so you will receive your messages wherever you are.

We've created a dedicated push email microsite, **www.genesis.co.uk/mobileemail**. We've cut out the jargon to explain the basics of the BlackBerry® Internet Service (BIS), BlackBerry® Enterprise Server (BES) and much more!

KEY STATS

Of the UK SMEs we surveyed....

- **75%** of push email users agreed that using a mobile email device helped improve productivity and efficiency
- **66.2%** agreed that push email in their business helped improve customer service
- **26.7%** felt that push email had helped to increase profitability
- **17.2%** felt that push email had helped to increase sales and /or turnover

Premium Sat Nav on your phone

CoPilot® Live™ uses the latest generation of GPS navigation technology to give you powerful, voice-guided satellite navigation on your smartphone.

It's just like a dedicated system, but it's portable and there's no need to buy an expensive additional device. CoPilot Live is the premium navigation system that you can trust to guide you everywhere – simply, safely and reliably.

- Clear 2D and 3D driving views – it's easy to see where to go next
- Detailed street maps with full UK postcodes
- Exceptional route calculation – works out even the most complicated trip in seconds
- Strong safety focus – designed to keep your eyes on the road
- Automatic safety camera alerts with free updates
- Pre-loaded with thousands of points of interest like petrol stations, hotels and car parks
- Live location tracking on the web using the mobile Internet

Compatible with all Windows Mobile® smartphones and Pocket PCs and certain Nokia and Sony Ericsson smartphones.

CoPilot Live™ Mobile Navigation

CoPilot Live Pocket PC
For your O2 XDA or T-Mobile MDA
CoPilot Live Smartphone
For your Orange SPV and other Windows Mobile Smartphones
CoPilot Live Symbian
For your Nokia N73, E61, E50 or N95

BlackBerry® 8800

1

NEW!

The thinnest BlackBerry® handset yet

- GPS
- BlackBerry Maps
- Multi-media player
- Expandable memory
- Voice-Activated Dialling
- Trackball navigation
- Stereo headset jack

BlackBerry

New from RIM – the BlackBerry® 8800, is the thinnest BlackBerry® handset yet and designed to satisfy the most demanding mobile user.

It's equipped with a full QWERTY keyboard and RIM's user-friendly trackball navigation system.

The large, bright, high resolution display screen means that images appear vivid and crisp for viewing emails, attachments, web pages and pictures.

As business customers visit different clients, the built-in light sensing technology automatically adjusts the screen, keyboard and trackball brightness to suit various lighting environments.

The BlackBerry® 8800 really is the stylish way to get things done!

The fantastic 4

Why not make the most of push email technology with one of the 'Fantastic Four' BlackBerry® devices – there's sure to be a device and a package to suit you!

2

Stay mobile!

With one of these fantastic, **newly released** handsets

With so many makes and models on the market, finding the perfect handset can seem daunting. So we've highlighted a range of great devices, each with their own strengths. All you have to do is choose which one is right for your business!

Looking for something that stands out and leaves a lasting impression? Why not consider the ultra-stylish LG Shine, or the compact Samsung X830.

If you often spend time away from the office, a smartphone could help you save time and improve productivity, combining the functionality of a mobile phone with the bonus of emails on the move. Why not check out a BlackBerry,® or the Palm Treo 750.

Remember - this is just a selection of the huge range we can offer your business, please ask if you can't find what you are looking for.

Looking to renew or add a connection?
Apply online and win £300 for your business!
Simply complete our call-back form at www.genesis.co.uk/connect for your chance to **WIN!**

5 simple ways

to build a bespoke package

We are able to offer great deals from both O2 and Vodafone - These 5 easy steps will help you build a package that fits your business perfectly!

1 Add a roaming option

The idea that roaming costs the earth is now a thing of the past – if you are a frequent traveller, it pays to know about international roaming options.

Now you can leave your phone on while abroad in the confidence you'll never miss a call!

Please contact the Genesis Customer Service Team on 0870 444 3700 before you travel to ensure the international roaming bar is lifted.

Vodafone World

News! Vodafone have announced reductions on their international roaming rates from April 07.

Vodafone World offers **reduced roaming rates** as standard on all Small Business and Sharetime Plus tariffs. Customers on other Vodafone tariffs can access these rates by adding International Call Saver (ICS) onto their tariff* for £2.13 ex VAT per handset per month.

*Tariff dependent

Vodafone Passport

A simple international price plan for Vodafone Business customers on either Sharetime Plus or Small Business tariffs - Each time you travel overseas to a Vodafone Passport country, select one of the Vodafone preferred networks. Then whenever you make a call, you'll pay a standard one-off connection charge of just 63.82p (ex VAT).

After the connection charge, the rest of your call is charged at your usual tariff rate (just as it would be in the UK). You can even use any inclusive minutes you have in your bundle!

Receiving calls is just as straightforward. You'll pay the 63.82p (ex VAT) connection charge for each call you answer, the call is then free for the first 60 minutes then 17p (ex VAT) per minute thereafter, **it's that simple!**

O2 My Europe

A roaming option for O2 Best for Business customers.

O2 My Europe offers a low rate of 30p (ex VAT) per minute back to the UK or within Europe* to and from any landline or mobile network, anytime – making it easy to calculate your roaming costs.

Plus if you have International Traveller Service (ITS) in your tariff, you'll enjoy your preferential ITS rates where they are cheaper than the O2 My Europe costs.

*Excluding Finland

2 Use traffic options

When in the UK, save time and avoid traffic queues:

Vodafone AA Roadwatch: Call 2222

Customers on a **Vodafone tariff** - call **2222** from your mobile for up to date traffic news in the local area.

O2 Trafficline 1200™: Call 1200

Customers on an **O2 tariff** - call **1200** from your mobile to check the roads before you travel or for updates during your journey.

3 Add a bundle & reduce costs

The bigger the bundle, the lower the unit cost!

Vodafone Optional Extra Packs*

Reduce the cost of texting or web browsing on your Vodafone Business tariff with an Optional Extra Pack.

On shared accounts, the extra packs will be added to the Parent number and shared between all handsets on the account.

*Tariff dependent

O2 Bolt Ons*

Shared Minute Bolt Ons add more great-value minutes to your Best for Business tariff, to be shared between the numbers on your account. **O2 Text Bolt Ons** enable you to cut the cost of text messaging, by adding additional messages to be shared across all your account handsets.

*Tariff dependent

4 Add a data bundle

If you would like to browse your favourite sports, news or business pages, why not add a data bundle to your tariff?

Vodafone

Mobile Internet Extra Packs can be added to ANY of the Vodafone Perfect Fit for Business tariffs and give great rates on Mobile Internet Browsing.* Choose from a bundle of between 10 and 2000 MBs. Line rental prices start from £7.50 ex VAT. The bigger the bundle the lower the unit cost.

One optional Mobile Internet Extra Pack can be added per account, to be added to the parent and shared amongst the group.

*Once the optional Extra Pack has been used, Mobile Internet Browsing is £1.50 per MB. All prices apply to UK Mobile Internet Browsing only. N.B - Extra Packs will not be carried over to the following month.

O2

GPRS bundles can be added to specific voice tariffs** or be used as data only# - Choose between a 'Pay as You Use' option or Bolt On up to 1GB of data. These bundles can be added to specific handsets in your account but cannot be shared.

**Tariff dependent. #Depending on GPRS Bundle chosen.

5 Peace of mind with protection cover

We offer a very competitive protection package to give you and your business complete peace of mind.

Our Handset Total Service Cover (HTSC) protects against theft, accidental loss or damage, breakdown and component failure and water damage.

Don't just take our word for it; see how Genesis compares to the rest:

Handset Protection Cover	Cost Per Handset, Per Month
Genesis HTSC#	£3.99*
T-Mobile fonesafe	Handsets £5.99, Data Handsets £7.99
O2 Insure Standard	£6.00
Vodafone Cover Me	£6.95

Includes standard and data handsets. * Excludes VAT.
† Package includes an excess of £25 per authorised claim.
Information correct at time of going to press.

Flybook VSeries
MOBILE BROADBAND

Introducing the Flybook V Series from Dialogue, the smallest, smartest and best connected sub-notebook you'll ever meet. With the ability to connect to wireless networks, Bluetooth™ and all mobile data networks including the latest HSDPA standard offering Mobile Broadband up to 3.6Mbps, you'll never be out of touch. The Flybook also features a touch screen so that it can be used on the go, even when you have nowhere to set it down, so whether you're sending emails, making phone calls or surfing the web on mobile broadband, Flybook is literally an office on the move.

available from Genesis Communications – call 0870 066 0985

V33i

Case Study - V33i - Clarke Energy
400 handsets with Genesis Communications

"Overall this is a good laptop for someone who travels and needs to be able to access his/her office while in transit, and needs to access e-mail or other office applications. It has all the necessary connections required; this is the only laptop I have seen to have all these connections. To summarise - I was very happy with the performance of such a compact laptop!"

V23i

Speedy surfing!

Working out of the office can mean lost time and lost profit, as dial-up download speeds can be slow and frustrating!

There is a simple solution – enabling you to log on to your emails and the internet any time, anywhere! It's quick and easy to get remote internet access with a data card or USB modem. Small enough to carry around, simply plug the device into your laptop and log on to your emails and the internet at broadband speeds of up to 1.4MPS.

Remote working is now a practical reality!

Devices FREE on price plans from £45 per month
Includes UNLIMITED UK MB allowance†

OR

Just £49.99 when you connect to Vodafone Mobile Connect 250 at £25 per month
Includes 205MB monthly allowance†

†Subject to fair usage policy. Usage not to exceed 1GB per account per month.

MOBILE ESSENTIALS

Mobile Handsets | Data Cards | Headsets | Car Kits | Accessories

Don't risk 3 points and a £60 fine!

On 27th February, the Road Safety Act 2006 came into force. Any driver caught using a hand-held mobile device is likely to receive a £60 fine as well as 3 points on their licence.

What's more, **if you are an employer** you can be prosecuted if you require employees to make or receive calls while driving.

Remember...

- **It's an offence** to cause or permit the use of a hand-held mobile phone while driving
- **It's an offence** to cause or permit a driver not to have proper control of a vehicle

It may be tempting to reach for your mobile to make a quick call – but don't risk being caught out – take a look at some of our best selling Bluetooth headsets and Car Kits and stay within the law!
